\*\*Reflects effects of the Fund's maximum sales charge of 5.75%.

The Fund's investment advisor is contractually obligated to waive a portion of its fees and reimburse other expenses until April 30, 2012, in amounts necessary to limit the Fund's operating expenses (exclusive of brokerage costs, interest, taxes, dividends, acquired fund fees and expenses, and extraordinary expenses) for Investor Class, Institutional Class, Class M and Class A shares to an annual rate (as a percentage of the Fund's average daily net assets) of 1.29%, 0.99%, 0.99% and 1.34%, respectively. This expense limitation arrangement may not be terminated by the Fund's investment advisor prior to such date under any circumstances.

**The performance quoted represents past performance, does not guarantee future results and current performance may be lower or higher than the data quoted. The investment return and principal value of an investment will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance data current to the most recent month end may be obtained at [www.forwardfunds.com](http://www.forwardfunds.com). Investment performance reflects fee waivers in effect. In the absence of fee waivers, total return would be lower. Total return is based on NAV, assuming reinvestment of all distributions. Performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.**

## OVERVIEW

The Fund invests in companies that Forward believes has the potential to outperform the Russell 2000 Index and are demonstrating fundamental growth potential and trading at attractive valuation prices.

- › The portfolio is comprised of small cap stocks exhibiting combinations of fundamental quality, earnings growth, revenue growth, cash flow growth, business restructurings or equity spin-offs that have the potential to result in future price appreciation.
- › Stock purchases may include: durable growth stocks that frequently exhibit consistent growth rates, strong management teams and sustainable earning prospects; contrarian stocks that are confronted by short-term issues and market overreactions; emerging and undiscovered stocks that tend to have few institutional holders and limited Wall Street research analyst coverage and thematic stocks that try to capitalize on a large growing market opportunity, new business models or rapid innovation.
- › The team draws on both internal and external resources to access industry dynamics, business franchise/management strategy, total addressable market, thematic opportunities, financial analysis, attractiveness of earnings growth, cash flow strength, revenue growth potential, balance sheet strength and/or valuation characteristics.

**There are risks involved with investing, including loss of principal. Past performance does not guarantee future results, share prices will fluctuate and you may have a gain or loss when you redeem shares.**

**Foreign securities, especially emerging or frontier markets, will involve additional risks including exchange rate fluctuations, social and political instability, less liquidity, greater volatility and less regulation. Investing in smaller companies generally will present greater investment risks, including: greater price volatility, greater sensitivity to**

**changing economic conditions and less liquidity than the securities of larger, more mature companies.**

The Russell 2000 Index measures the performance of the 2,000 smallest companies in the Russell 3000 Index. The Russell 3000 Index represents approximately 98% of the investable U.S. equity market. One cannot invest directly in an index.

A correlation coefficient is a measure of the interdependence of two random variables that range in value from -1 to +1, indicating perfect negative correlation at -1, absence of correlation at zero and perfect positive correlation at +1.

Standard deviation measures the degree to which a fund's return varies from its previous returns or from the average of all similar funds.
